3+ Years Exp	**250+** Screens	**99.8%** Crash-Free	**40%** Tech Debt Cut	**30%** Faster App

PROFESSIONAL SUMMARY

Innovative Senior Flutter Developer with 3+ years of experience architecting scalable, high-performance cross-platform applications for Android, iOS, and Web. Expert in Clean Architecture (MVVM/Clean) and advanced State Management (BLoC, Riverpod, GetX). Successfully managed 250+ screens achieving 99.8% crash-free sessions. Proficient in Unit/Widget Testing, CI/CD automation, and complex REST/Firebase integrations.

PROFESSIONAL EXPERIENCE

Sr. Flutter Developer
CURRENT ROLE

I-Engage (PSPL Advertising Pvt. Ltd.) | Indore, M.P.   *Feb 2025 - Present*

- Architected multi-platform apps using MVVM & Clean Architecture - reduced technical debt by 40% and improved code maintainability significantly.
- Implemented BLoC state management in high-traffic modules ensuring predictable data flow and 60% faster debugging.
- Optimized app startup time by 30% through deferred loading, lazy initialization, and advanced image caching strategies.
- Built automated CI/CD pipelines using GitHub Actions - reduced deployment time and ensured reliable release cycles.

Flutter Developer

Systos Technology | Indore, M.P.   *Nov 2023 - Jan 2025*

- Developed responsive, pixel-perfect UI/UX for 5+ mobile applications across Android and iOS platforms.
- Integrated REST APIs (Dio/Retrofit) and Firebase services (Auth, Firestore, FCM) for real-time data synchronization.
- Used Flutter Profiler to resolve memory leaks & janky animations - improved app performance by ~25%.
- Collaborated with design and backend teams in Agile sprints to deliver features on time with high quality.

NOTABLE ACHIEVEMENTS

- Delivered 7 production-grade applications across Android, iOS and Web - all live on Play Store.
- Managed 250+ screen codebase singlehandedly with zero critical regressions across multiple releases.
- Reduced app startup time from 4.2s to under 3s by implementing deferred loading and Lottie optimization.
- Set up complete CI/CD pipeline from scratch - automated testing, building, and Play Store deployment.
- Integrated 3 payment gateways (Razorpay, Stripe) with 100% uptime across production apps.
- Improved app crash-free rate from 96% to 99.8% by fixing memory leaks using Flutter DevTools.

WHAT I BRING TO YOUR TEAM

Clean Code
Maintainable, well-documented code following SOLID principles and Clean Architecture.

Fast Delivery
Strong Agile execution - deliver pixel-perfect features on time with minimal revisions.

Cross-Platform
Single Flutter codebase for Android, iOS and Web - saving time and dev cost by 60%.

Performance
Obsessed with app performance - smooth 60fps animations, fast load times, low crash rates.
